In the cattle community we all use our crushes every day of the year. Some are state of the art, some are custom built, more are long standing friends whilst a few are hated enemies. This calendar records just a few that I have met during my working year. I would like to thank all those farmers who allowed me to photograph their crushes in their working clothes.

The publishers have taken the greatest care in the compilation of the calendar. However they are unable to accept responsibility for any errors herein. Note: All dates are correct at time of going to press.
